

## Project Profile

### Wockhardt UK – Servicing & Maintenance

#### Introduction

Wockhardt UK is a diverse pharmaceutical business, created from the merger of CP Pharmaceutical and The Wallis Laboratory. They are a major supplier of healthcare products to the retail pharmacy, hospitals, and grocery sectors, with thriving export and contract manufacturing divisions also in place.

During the company's biannual shutdown, CDC Cleanroom Specialists were employed to undertake **Planned Preventive Maintenance** work. During this time re-vinyl and drainage works were also carried out to the class 100 and 10,000 areas of the facility.
